Abyss [01]
Split stone is a versatile flooring solution that can be used both indoor and outdoor. Having a thin profile, these products can be used in many situations, especially where depth of tile is an issue such as balconies or when renovating an interior where there is limited set down. Split stone is naturally non-slip, making it ideal for use around pools and on pathways or driveways. It’s an economical stone and easy to maintain, making it a great choice for both commercial and residential projects.

**COLOUR RANGES**

- Abyss
- Atlantic
- Endicott
- Lichen
- Luca
A selection of high resolution 3D textures is available at www.ecooutdoor.com.au
Modular patterns can incorporate large format tiles in a cost effective way.
The top surface of these stones has a natural split finish making them inherently non-slip.
Endicott [Hand Chipped]
SPLIT STONE

Split stones are dense and salt resistant with a stunning varied colour palette, making them ideal for high traffic areas.
Abyss and Atlantic [Base Architects Office QLD]

Lichen [Claremont Shopping Centre WA]

SPLIT STONE

COMMERCIAL APPLICATIONS
Abyss, Atlantic and Lichen have a high degree of dimensional accuracy for easy install, making them a great choice for commercial applications.

SPLIT STONE

Split stone tiles have been produced from fine grained sedimentary rock. These stones have been formed layer by layer over millions of years. The pressure exerted over this time has meant that these stones are extremely dense. Typically during production, these products have been split horizontally in line with this layering and then cut vertically into appropriate tile sizes.

**SIZES**

**Endicott**

- **Tiles**
  - 300-800mm x 300-800mm, 25-40mm

- **Cobblestone**
  - 100x100mm x 15-30mm, Split finish on all six sides

- **Filetti**
  - Random Length Paving
  - Width 30-60mm
  - Thickness 30-50mm

- **Crazy Paving**
  - Irregular Crazy Paving
  - 15-30mm

- **Coping / Step Tread**
  - Bush Hammered
  - 600x350, 25-35mm

  Weight per m² is approximately 75kg/m². Due to variance in thickness these products should be laid on a 25mm wet mortar bed over a concrete slab. Refer to installation tips for further information.

**Luca**

- **Cobblestone**
  - 40-60mm x 40-60mm, 40-60mm
  - 100x100mm, 40-60mm, Split finish on all six sides

- **Crazy Paving**
  - Irregular Crazy Paving
  - 20-40mm

- **Filetti**
  - Random Length Paving
  - Width 40-80mm
  - Thickness 40-80mm

  Custom sizes can also be produced on request. Weight per m² for 12mm tiles is approximately 80kg/m². Due to variance in thickness these products should be laid on a 25mm wet mortar bed over a concrete slab. Refer to installation tips for further information.

**Abbyss, Atlantic and Lichen**

- **Tiles**
  - 195x195mm, 12mm
  - 400x195mm, 12mm
  - 400x400mm, 12mm
  - 600x400mm, 10mm (Atlantic only)
  - 605x400mm, 10mm (excl. Atlantic)
  - 810x400mm, 12mm
  - 810x810mm, 12mm
  - Random Length
  - 300–800 x 50–200mm, 10mm

  Custom sizes can also be produced on request. Weight per m² for 12mm tiles is approximately 33kg/m². Given these tiles are calibrated and are relatively consistent in thickness, they can be laid with a tile adhesive over a concrete slab. Refer to installation tips for further information.
